

# GARDEN MARKERS

To celebrate **National Children's Gardening Week** (28th May – 5th June), you could encourage your little one to grow their own fruit, vegetables, herbs, plants or flowers.

1. Print and cut out these fab garden markers then fold them in half, creating a crease.
2. Find some fallen twigs or sticks then place the top of the stick within the crease of your marker.
3. Glue one of the inside halves of the marker then press it against the other side to create a little flag at the top of your twig/stick.
4. Pop them into your plant pots so you can keep track of what's growing (there are some plain ones on the last page for you to write your own).
